

# Prescription Treatment® University Course Outline

## Course #160 Treatment Techniques

### **Methodology:**

All subject matter is presented in a multi-media format including audio, text, photographs and movie footage delivered over the web and on companion CD-roms. All lessons are supported throughout with quizzes. Each course culminates in a 25 question Final Exam that students must pass in order to pass the course.

### **Objectives:**

The participant should develop a basic understanding of each of the common treatment techniques used in structural pest management. This includes: what they are, how they are administered, where they are likely to be administered and why they are useful in an integrated approach to pest management.

### **Subject Matter:**

Prescription Treatment pest management concept (5 minutes)  
Crack and crevice treatment (10 minutes)
