

# Prescription Treatment® University Course Outline

## Course #300: IPM in Schools and Daycare Facilities

### **Methodology:**

All subject matter is presented in a multi-media format including audio, text, photographs and movie footage delivered over the web and on companion CD-roms. All lessons are supported throughout with quizzes. Each course culminates in a 25 question Final Exam that students must pass in order to pass the course.

### **Objectives:**

The participant should come away from this program with an understanding that the school environment is a special one. It has special sensitivities, an array of pest-conducive environments, and in many cases, has regulations limiting the types of pest management actions that can be taken. All essential items for creating an IPM approach to pest management are covered and the participant should have a working knowledge of the special aspects of a school environment.

### **Subject Matter:**

What is IPM? (10 minutes)  
Definitions pertaining to IPM in schools (10 minutes)  
Becoming aware of the school environment (10 minutes)  
Primary locations of pest activity in schools (10 minutes)  
IPM and techniques (10 minutes)  
Least hazardous pesticides (10 minutes)  
Additional resources (2 minutes)
